## Mission Statement:

A protest on March 7th 2011 at the White House 'Regarding the Protection of the United States Postal Service' organized by active and retired APWU rank and file membership. The demonstration primarily focuses on a permanent solution and payback to/of the CSRS and FERS pension overfunding to save postal worker jobs rather than the temporary 'relief' measures proposed by the Obama administration's budget plans allowing further dismantling of the postal service. The union members demonstrating will also stand in solidarity and support of our brothers and sisters in the current assault on collective bargaining rights that initiated in Wisconsin. The APWU National Executive Board and Presidents' Conference delegates (who will be in DC at time of protest) are all invited along with the entire rank and file membership.
