

# FIGHT THE PMG'S QUEST TO UNDERMINE SERVICE TODAY !

The Postmaster General's dastardly plan to close mail processing plants and postal facilities **REQUIRES** him to change service standards.

Management is "selling" these proposed changes as a good thing. But the documentation required and posted in the Federal Register clearly reveals the impact: [ Federal Registry/Vol 76. No. 183 ]

- *Currently 41.5 percent of 1st class mail under the current service standard is delivered in 1 day.*
- *Under the PROPOSED change of the PMG the percentage of 1st class mail that will be delivered in 1 day = 0*
- *Currently 26% of 1st class mail is delivered in 2 days.*
- *Under the PMG's proposed change 2nd day delivery will increase to 50.6%*

*3 day delivery will jump to 49%*

IN ADDITION the Federal Register posting by USPS shows more negative impacts:

- ♦ Drop shipment locations availability would require changes to mailer transportation adding costs to regional and local mailers.
- ♦ Prices will change for commercial mailers who use zone-based pricing if locations are changed /eliminated and the nearest available locations are within different 3-digit ZIP codes.
- ♦ Retail 1st class mail customers would not have their mail picked up from collections in time for processing at locations for same day processing even if deposited before 8 a.m..

There is much more impact including total elimination of manual sortation, night differential and even to a degree Sunday premium. AND of course closing of postal facilities throughout the USPS disrupting your livelihood and exposing you to lay off !

**WHAT CAN YOU DO?** Write your disagreement with changing service standards to:  
**Manager Industry Engagement & Out Reach USPS 475 L'Enfant Plaza SW Rm 4617,**  
**Washington DC 20260 or email to [industryfeedback@usps.com](mailto:industryfeedback@usps.com) DO SO BY OCT 21**  
**PLEASE HELP ! TAKE ACTION TODAY AND GET OTHERS TO DO SO ASAP ! !**
